

I PSYCHOLOGY

IAA Philosophical concepts (as Philosophy AA/AI)  
IAJ Schools of psychology  
IAK Psycho-analysis  
IAR Behaviourism  
IB Research and experiment, experimental psychology  
IBN Tests, measurement, assessment, scales  
IC Animal psychology

ICC Human psychological processes and attributes, behaviour  
ICD Influences, determinants, environment  
ICE Stress (general)  
ICE X Physical, physiographical factors  
ICI Biological factors, physiological psychology, psychosomatics  
ICJ Psychological factors (as IC/IX)  
ICK Social factors  
ICL B (Attributes of psychological processes)  
Norms, variations....

(Types of processes)  
ICM Development, psychogenesis (general)  
ICM R Differentiation (general)  
ICP Sensation and perception, sensory processes  
ICQ Stimulus and response (general)  
ICT (Types of responses)  
ICV Conditional reflexes, conditioning  
ID Perceptual and motor processes, sensorimotor activity  
IDD Ability, aptitudes, skills, intelligence  
IDJ Performance, achievement  
IDQ Senses: proprioceptive, somesthetic, visual ...  
IE Motor, psychomotor processes  
IEH Motivation, drives, desires  
IEJ Involuntary behaviour, instinct, habits  
IEN Voluntary actions  
IEV will, volition, choice, decision

IF Affective psychology: emotions, feelings  
IFG (Types of emotions)  
IFK Cognitive, higher mental processes  
IFM Associative Processes, concept formation  
IFQ X Ideation  
IFR Imagination, symbolism, imagery, intuition  
IFV Learning and memory  
IFW Memory  
IG Learning  
IGM Conditioned learning  
IH Thinking, reasoning, Judgement, problem solving  
IHT Parapsychology: hypnotism, ESP ...  
IJ The Subconscious and Unconscious, depth psychology  
IJK Subconscious, extraconscious  
IJL Defence mechanisms  
IJP Unconscious, sleep, dreams

IJV The Individual, Individual psychology  
IJW Self concept, personal identity

IK Personality, character, temperament  
IKA N Personal construct theory  
IKK Traits, characteristics  
IKM B Psycho-analytical personality factors: Id, Ego ...  
IKO Differential psychology, individual differences  
IKO T Typologies, types of persons  
IKQ The sexes, sex psychology  
IKE Sex behaviour  
IL Types of persons other than by sex or age  
(By deprivation, occupation, religion, family membership...)  
ILK (By age) Developmental psychology  
ILY Age, age groups  
IM Children, child psychology  
IMM The family, family relations  
IMN (Particular ages) Infants, adolescents...  
INU Handicapped persons  
IMV Exceptional persons: geniuses...

IN Social psychology, social behaviour  
INL Attitudes...conformity ...power and influence...

INO Social interaction  
 INP Interpersonal interaction  
 IO Communication  
 IOP F Signs, symbols  
 IOR Verbal, language  
 IOV Media: audiences, information  
 IP Socialisation  
 IPR Differentiation and stratification, roles  
 IPY Psychology of everyday life (clothes, appearance...)

IQ Groups  
 IQR Group dynamics  
 IQS J Types of groups  
 IQV Ethnopsychology: national, racial, cultural  
 IQY (By types of persons) (As IK/IM)

IRC Applied psychology  
 IRD Clinical Psychology (general)  
 IRE Mental health, hygiene

IRF Medical psychology, psychiatry, abnormal psychology,  
 psychopathology  
 IRF RY Therapeutic environments  
 IRF T Hospitals, clinics ...  
 IRG Psychiatric practice, clinical action  
 IRJ Diagnosis, symptoms  
 ISB Types of treatment, therapy  
 ISF Community mental health  
 ISG Physical  
 ISH Drug therapy, pharmacotherapy  
 ISP Psychotherapy  
 ISR K Psycho-analysis, analytical psychotherapy  
 ISW Group therapy  
 ISY Brief psycho-therapy  
 IUB Mental disorders, types of disorders  
 IUB R Nature of mental illness, aetiology  
 (By cause)  
 IUM Organic, physical causes  
 \* Alternative (preferred in Class H Medicine)  
 (By cause and manifestation)

IUN Mental retardation: idiocy, imbecility ...  
 IUO N Psychosomatic  
 \* Alternative (preferred in Class H Medicine)  
 (Disorders of psychological processes (as IA/IQ))

IUP Learning disorders  
 IUP G Communication disorders, aphasia  
 IUP O  
 IUY Autism  
 IVB Psychoses  
 IVC Organic psychoses: toxic ...  
 IVC Y Functional  
 IVD Affective: manic-depressive ...  
 IVH Paranoia  
 IVN Schizophrenia

IVQ Neuroses  
 IVR Anxiety neuroses  
 IVS Hysterical neuroses  
 IVT Phobic neuroses, phobias  
 IWB Personality disorders: psychopaths ...  
 IWD Behaviour disorders, psychopathology  
 IWX B Non-psychiatric conditions

IWX P Types of persons, psychiatric patients  
 W (By sex) (as IKW/IKX)  
 IWY (By various characteristics) e.g. Socially deprived... (as IL)  
 (By age)  
 IX Children (as IM)

IY other applied psychologies  
 \* Alternative (divided like whole classification - e.g.  
 Psychology of law IYS)
